WHAT IS COMING?

Most of the learning contents for IO1, IO2 and IO3 has been already completed and the next step is to produce **media reach mini-learning format resources**. UNWIND team will work in order to develop a full suite of dynamic training resources constituting a valuable source of knowledge and skills for young people in labour market. The second partner meeting started with a short review of the project – intellectual outputs, objectives, schedule and general development.

The meeting was filled with discussions on the resources developed by the UNWIND partnership in previous months. Taking into consideration feedback from local working groups, shared by some of the partners, we analysed how can we present created contents in most effective and engaging way to respond to the needs of targeted young employees.

Additionally, we discussed administration, technical and managerial issues of the project. Our meeting was finished with clear division of tasks among partners and establishing deadlines for coming months.

Our work on the project will continue. We planned the third project meeting, which will be held 23rd - 24th of September 2019 in Joensuu, Finland.
